I purchased it when it was on sale, but regular price was only \$3. Now I am losing sleep at night wondering what I could've purchased with that \$3.. This game is quite short, but worth the price. It's nothing amazing, but it's not terrible either. I was genuinely scared when that thing jumped out of nowhere and attacked me. The graphics and music are pretty nice, although there are some ugly blotches of pixels here and there and some cheesy things. I'd say you can find joy in the game simply by

playing it in the dark with the lights off for a little bit. Is it worth the price? I mean I've bought worse things for 2.99 \*cough\*kurtzspellLootboxes\*cough\*. So yes it is worth the price as 3 dollars is virtually nothing considering the dev gets 30 percent of that taken away.. This game is quite short, but worth the price.
